PURCHASING AGENT

September 26, 2019

Amendment to the Following Bid:

1. Bids for QTY One (1) New DuraPatcher P2 Trailer Mounted Spray Injection Road Maintenance Machine (or equal to specs).
  - On Page 3 & 11 of the Invitation to Bid Documents, it has come to the attention of Johnson County that engine specs for an Interim Tier 4 is no longer available per EPA regulations as of January 1, 2019. This amendment to the spec language changes the engine requirement to a 74 HP Final Tier 4 EPA approved diesel engine. When preparing a bid please use the EPA approved diesel engine requirements. This EPA approved diesel engine requirement supersedes all original engine specifications in the bid document.

For any questions that may arise, please contact Dustin Shearin at 423-727-7861.

Please sign & date below acknowledging this amendment. You must include a signed copy of this letter with your sealed bid upon submission.
