Attachments: Comm Report Update 2-12-25.pdf

See attached report, also just as an update, The Generator operation has been resolved, The contacts it in place, the IT position is in place and working well, the staff member is gathering an understanding of our system, and working through it. There is a meeting scheduled with IT decisions to begin work on that project. The staff is doing well, we are working diligently to fill vacant positions Currently the Corrections side of the Agency is operating in a well balanced direction, with only one vacant position at this time. I would like to express gratitude to the Commission for allowing the mentioned actions to take place. I would also take this time to mention that with the growth of the County (even considering the recent events) the development of the Sheriff's Office , Emergency Services, and County Officials, Johnson County as a whole demand for service is ever increasing. With that the future is going to demand an increase in work load and we as strive to meet that demand we are likely to be faced with continuing staffing, operations, and equipment challenges. I/(We) understand that this is not a challenge that can be taken or corrected overnight, however I feel like the directions and vision should be expressed.
